ODUYE MARIAM ABIMBOLA

Lagos, Nigeria (open to remote) | oduyemariam@gmail.com | (+234) 702 684 7576 | Portfolio | GitHub | LinkedIn

SUMMARY

Full stack web developer and Computer Science graduate with hands on experience in JavaScript, TypeScript, React, Next.js, Node.js, Express.js, Tailwind CSS, Supabase, Firebase, MongoDB and MySQL, as well as Git, GitHub, Vercel, Python and Power BI. Comfortable working remotely, integrating REST APIs and turning designs into responsive interfaces that work across devices. Eager to keep growing with mentorship in an agile, collaborative team.

EDUCATION

Babcock University, Ogun State, Nigeria — B.Sc. Computer Science, 2020–2024

TECHNICAL SKILLS

- **Web Development:** JavaScript, TypeScript, React, Next.js, Node.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Databases & APIs:** MongoDB, Supabase, Firebase, MySQL, RESTful API integration, responsive & cross-device design
- **Tooling:** Git/GitHub, Vercel, Figma-to-code workflow, Python, Power BI, QGIS, Google Earth Engine

PROFESSIONAL EXPERIENCE

- **Full Stack Developer, ACHII (Africa Climate and Health Innovation Institute)** (06/2026–Present) — Build and maintain the Next.js and Supabase website (about 30 users): sign-ups with welcome emails, an SEO fix that got it indexed on Google, and 10 webinar pages.
- **Geospatial Intelligence Intern, Observatory Earth Analytics** (05/2025–06/2026) — processed and visualized GIS data with QGIS and Google Earth Engine, and supported web mapping tools.
- **Program Assistant, UCcareforall Initiative** (03/2025–04/2025) — coordinated logistics for community health outreach events.
- **Manager, Ayetty Enterprise** (08/2024–03/2025) — integrated new systems to streamline production, inventory, and sales tracking.
- **IT Intern, Mouka Limited** (03/2023–06/2023) — researched IT topics and supported continuous-improvement initiatives.
- **ERP Development Intern, Zetamind Consulting Limited** (01/2023–03/2023) — customized Microsoft Dynamics 365 Business Central for clients.

PROJECTS

ACHII — *Next.js, TypeScript, Supabase, Tailwind CSS* (live)

- A live nonprofit website with a webinar archive, resource bank and blog, plus email sign-ups through Supabase and Resend.

Popnote — *React, TypeScript, Firebase, TMDB API* (live)

- A watchlist app for movies, series and anime with search, genres, trailers and where to watch in Nigeria.

Meter Tracker — *React, TypeScript, Supabase, Recharts* (live)

- Tracks prepaid electricity usage from meter readings and recharges, with charts and shared household meters.

Twitter Clone — *MongoDB, Express.js, React, Node.js* (live)

- A social app where users post and interact, with an Express/MongoDB REST API behind a React front end.

CERTIFICATIONS

- Responsive Web Design and Front End Development Libraries - freeCodeCamp
- Cisco Certified Network Associate (CCNA); Cisco Networking Basics; Introduction to Cybersecurity - Cisco Networking Academy
- Data Modeling, ETL, and Harnessing the Power of Data with Power BI - Microsoft
- CompTIA A+ Core 1 & 2 - CompTIA

FELLOWSHIPS & AWARDS

- Ilishan Indigene Scholarship, Babcock University (2021–2023) — merit award given to about 20 students a year.
- Overall Best Student (JS1–SS3), Dee Unique College (2015–2020).
